intro

I am a multimedia designer who has been doing graphic design for organizations for 4+ years sporadically with just under a year of full-time work. A large portion of my experience is in the creation of 3d content, ranging from photoreal stills to branded animations. In a less formal setting, my day-to-day is working on a variety of creative projects such as graffiti, fashion, or daily sketching. All which help to define my approach to new work, with my focus on experimentation, innovation, and unexpected qualities.

skills

interests

education

Carleton University
Bachelor of Industrial Design
2019-2023

(2023 expected graduation)

While At Carleton:

\$12,000 Entry Scholarship

VP SOCIAL - CIDSA

Carleton Industrial Design Student Association
Sep 2020 - April 2022

George Lynn Memorial Scholarship

Awarded by a jury for excellence in design of medical technologies
April 2022

experience

Graphic Artist

100th Regiment Historical Society
May 2021 - Nov 2021

Under the umbrella term “Graphic Artist” I worked on the ideation and development of a wide variety of design-based projects, ranging from branding, web design, 3D animation, and video production to name a few. Additional responsibilities included working with/ providing guidance to a junior graphic designer.

Freelance Work

Graphic Design & Illustration
2021-now

Mostly comprised of cover art and graphic design/illustration. Things such as logos, social media posts, and assorted layout work.

Team Member

FIRST Robotics Team 2702
Sep 2017 - 2021
Voluntary

As a part of this team I worked on the design, manufacturing, and assembly of a competition robot. I gained experience working on electrical systems, and gained my first experience with Solidworks back in 2017. The second half of my responsibilities included the production of branded media, such as social media content and release videos.
